

# Insurance Coverage among Women of Reproductive Age in the District of Columbia

The Affordable Care Act established several provisions aimed at reducing the uninsurance rate, and the number of uninsured women of reproductive age (15–44) in the United States fell from 12.7 million in 2013 to 7.5 million in 2017.

In the District of Columbia, which expanded Medicaid under the Affordable Care Act, the uninsurance rate fell from 6.4 percent in 2013 to 3 percent in 2017. Despite these gains, approximately 6,000 DC women of reproductive age remained uninsured in 2017.

## Uninsurance Rate among Subgroups of Women in the District of Columbia and the US, 2017

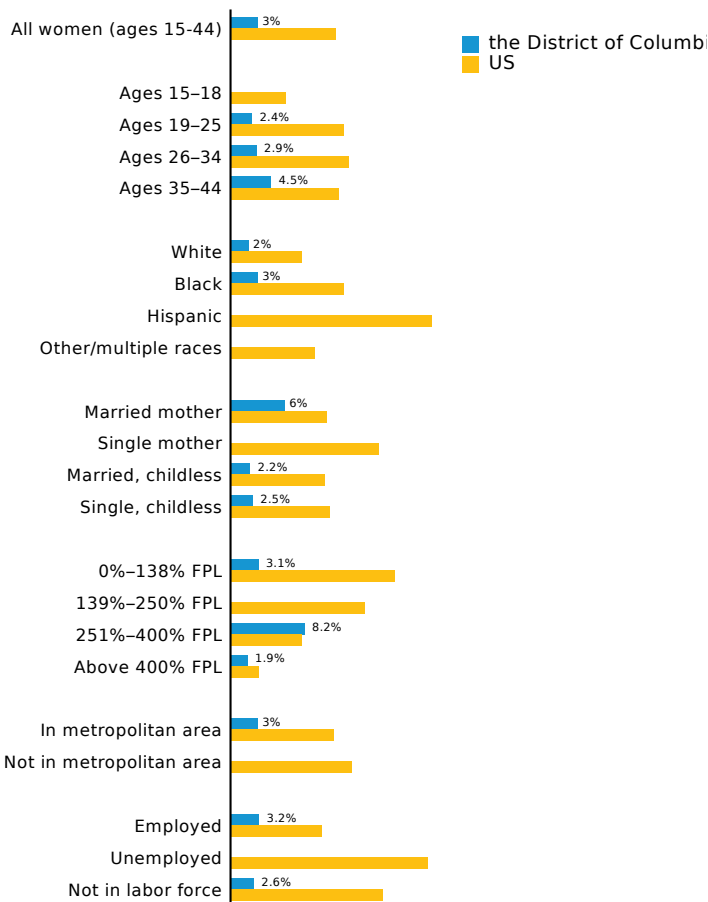

Uninsured women are vulnerable to well-documented access, affordability, and health problems associated with lacking insurance coverage, including potentially limited access to family planning and other reproductive health services.

- Women of reproductive age in the District of Columbia had a lower uninsurance rate (3 percent) than similar women nationwide (11.7 percent) in 2017 (figure 1).
- Within the District of Columbia, , and women with incomes between 251 and 400 percent of the FPL had higher uninsurance rates than the state average for all women of reproductive age in 2017.

### Looking ahead

Reducing the uninsurance rate among women of reproductive age in the District of Columbia may require further expanding access to Medicaid or other highly subsidized insurance, as well as targeted outreach and enrollment efforts to subgroups of already eligible women with the highest uninsurance rates.. It will also be critical to track women's ability to access the general and reproductive health services they need, including monitoring the availability and capacity of community health centers and Title X clinics.

**Potential Eligibility for Financial Assistance Obtaining Coverage among Uninsured Women of Reproductive Age in the District of Columbia, 2017**

**Source:** Urban Institute analysis of 2017 American Community Survey.

**Note:** CHIP is the Children's Health Insurance Program. For detailed category definitions, see *Health Insurance Coverage for Women of Reproductive Age, 2017*. Some women likely eligible for Marketplace premium assistance may be eligible for more affordable coverage through a state-specific program.

Some women may remain uninsured because they lack an affordable coverage option, but others may not enroll in an affordable Medicaid, Children's Health Insurance Program, or Marketplace plan because of a lack of awareness of their eligibility, administrative burdens, or concerns about enrolling in a public program.

Among approximately 6,000 uninsured women of reproductive age in the District of Columbia in 2017 (figure 2),

- about 21.7 percent were likely eligible for comprehensive Medicaid or Children's Health Insurance Program coverage based on their income;
- another 17.8 percent were likely eligible for assistance with premiums for Marketplace coverage based on their income, including 0 percent with incomes between 100 and 138 percent of the FPL;
- about 0 percent were women with incomes below the FPL who were likely ineligible for assistance obtaining comprehensive Medicaid, Children's Health Insurance Program, or Marketplace coverage; and
- about 60.5 percent were likely ineligible for assistance obtaining comprehensive health insurance, including noncitizens (42 percent) and women with incomes above 400 percent of the FPL (18.5 percent).

## Looking Ahead

Following Medicaid expansion in the District of Columbia, the uninsurance rate fell from 6.4 percent in 2013 to 3 percent in 2017. Despite coverage gains, approximately 5592 the District of Columbia women of reproductive age remained uninsured in 2017. In addition to continuing to monitor the uninsurance rate, it will be critical to track women's ability to access the general and reproductive health services they need. This will include monitoring the availability and capacity of providers that disproportionately serve low-income and uninsured women, such as community health centers and Title X clinics.
